

# Split Summer School 2016 and First International Conference on Smart Data and Smart Cities

Dear friends,

we are happy to invite you to take part in our Split Summer School 2016.

University of Split, Faculty of Civil Engineering, Architecture and Geodesy is pleased to announce that a summer school for seven different courses in the areas of civil engineering, architecture and geodesy is taking place this summer. The goal of STSS is to enable students and young professionals coming from different countries and backgrounds an experience of multicultural and interdisciplinary studying focused on one of the seven subjects, while actively networking with each other and lecturers.

Registrations for all the interested participants are open until 20th of June.

Price of tuition fee is 300€. Upon payment, every participant will receive a discount voucher for accommodation in a nearby, newly built student dormitory at convenient prices due to an agreement between the dormitory and the hosting faculty. The application form can be found on the Summer School's [website](#).

## Subjects:

- [FDEM Application in Engineering \(FDEM\)](#)
- [Introduction to GIS with practical applications \(GIS\)](#)
- [Design of structures by SCIA Engineer \(SCIA\)](#)
- [Structural Analysis of Historic Buildings \(SAHB\)](#)
- [Structural fire engineering analysis \(SFEA\)](#)
- [Scientific visualisation in Civil Engineering \(SciVis\)](#)
- [Water Resources and Environmental Engineering \(WREE\)](#)

## Venue

Summer School will be held at the **Faculty of Civil Engineering, Architecture and Geodesy in Split, Croatia, September 5 – 9, 2016.**

Split has an intense cultural, commercial and university life. It is the largest city of the region of Dalmatia. It lies on the eastern shore of the Adriatic Sea. With nearly 2000 miles of coastline, plus thousands of islands, Croatia has plenty to offer to lovers of sea and sunshine. Having been declared a UNESCO World Heritage site in 1979, Split holds a special place in the eyes of its inhabitants and the world.

## **First International Conference on Smart Data and Smart Cities**

SPLIT SUMMER SCHOOL 2016 September 5-9, 2016 together with First International Conference on Smart Data and Smart Cities September 7-9, 2016.

This conference will be organized as a collaboration between the Urban Data Management Society, ISPRS and the University of Split, Croatia. The UDM Society has been a pioneer in promoting information technologies in cities from since the early 1970s, and this conference will be its 30th event.
