Dear . Črtomir Remec

WORLD ENGINEERS SUMMIT 2013, SINGAPORE – PARTICIPATION IN THE YOUNG ENGINEERS AND PHOTOGRAPHY COMPETITION

On behalf of The Institute of Engineers, Singapore (IES), it is my pleasure to write to you to seek your support for the Young Engineers Day @ One – North, which will be held on 12 September as a part of the World Engineers Summit 2013. The inaugural World Engineers Summit 2013 (WES 2013) is to be held from 9th – 15th September 2013, in Singapore. Themed “Innovative and Sustainable Solutions to Climate Change”, it will be hosted by IES and will be held alongside the World Federation of Engineering Organizations (WFEO) General Assembly 2013.

WES 2013 will be bringing together the largest international gathering of engineers, scientists, researchers, policy makers, leaders of industries and key staff of governments in Singapore history. And it is the hope of IES that the Summit will be a catalyst that will spur the search and subsequent development and implementation of innovative and viable sustainable solutions to climate change.

IES recognizes that the students in our Secondary Schools, Junior Colleges, Institute of Technical Education and Institute of Higher Learning are also the future source of innovative and viable solutions to climate change. The Young Engineers Day @ One – North recognition of this and has garnered the strong support of JTC and the Energy Market Authority (EMA) as sponsors of the event. The event is organized to provide students an opportunity to be engaged in the process of searching for solutions through a competition that will showcase their creativity, as well as to inspire their contemporaries to understand more about the challenges.

We therefore seek your support to encourage the students to participate in the Young Engineers Day @ One – North. In addition, we have also organized a photograph competition which information can be obtained from our WES website: <http://www.wes2013.org.sg>.

We look forward to receive your favourable response and would appreciate your indicative response by 30th April 2013. In the interim, do not hesitate to contact Ms Katherine Dai from the IES Secretariat at 6461 1224 or katherine@iesnet.org.sg should you require any clarifications.

Thank you.

Yours sincerely,

Prof Chou Siau Kiang

President

The Institution of Engineers, Singapore

Er. Tan Seng Chuan

Chairman, Steering Committee – WES 2013
